Designed For Your Success

Mission: Specialized Assistance

Service's mission is to provide holistic integrated behavioral health services to people who seek help for substance use disorders.

History: Specialized Assistance

Services (SASI) is a CARF-accredited agency with a 42-year history of serving Illinois and surrounding states with behavioral healthcare services. We provide effective drug and alcohol counseling and education through our residential and outpatient services.

The agency was established in 1976 by Dr. Edward Senay, one of the world's leading authorities in the field of addiction medicine. From the beginning, the agency was led by a strong board and staff who helped to pioneer medicated assisted treatment therapies in Illinois and the nation and established two sites in Illinois that provide effective Level III residential and Level I Outpatient program.

Must be 18+ to be eligible for services.

SASI accepts all Medicaid Insurance. Call us today for an evaluation and assessment.

SASI – Chicago is an Outpatient substance use disorder program located in Chicago's Douglas community on the Near South Side. Its main address is 2630 S. Wabash Avenue but its entrance is located on the State Street side. It is close to all public transportation with bus pick up on State St. outside the entrance and is within steps to the green line trains. Our convenient service hours provide you with the freedom to attend before or after work.

SASI uses medicated assisted Treatment (Methadone) that drastically reduces the cravings and symptoms associated with opioid use so that patients can concentrate on their recovery. Our effective addiction recovery counseling and education help you to get and stay on the path to a drug and/or alcohol-free life. Learn to reduce your stress and build personal coping tools.

SASI- Chicago offers the following program services and groups to increase you're your Recovery success:

- Medicated Assisted Treatment (MAT)
- Case management
